<TEXT>I do not want to pay more for my telephone service! I urge
you to reject a flat fee proposal that would change how
contributions are made to the Universal Service Fund. I am
concerned that this proposal could make my current service
unaffordable.

Under the flat fee proposal you are considering, people who make
few long distance calls would pay the same as people or
businesses that make many calls. In other words, low-volume and

primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Ps

I previously spoke with members of the consumer and government affairs department this afternoon. I was appalled to hear that they knew nothing of this situation. In fact, i was informed that my call was the first they had heard of this situation and asked me for the website and newspaper i had found the information on. I gladly obliged. Please do the right thing. Do not make me or any other college student of small time user subject to these erroneous charges.

Keep the USF Fair!

Sincerely,

andrew roy
